Activity Report

Circumventricles - Medical Quiz

Foundation course orientation session - batch 2023

Venue of the event: Lecture theatre 1

Date/s of the event: 20th September, 2023

Summary of the event

Circumventricles: The Medical Quizzing Society of UCMS successfully conducted its orientation session for the MBBS batch of 2023. The event aimed to familiarize the new entrants with the society, its members, and the commendable achievements it has accomplished over the years. We began with a round of introductions of the members and an overview of the quizzes we had conducted in the past.

During the session, the students were presented with clinical-based questions to gauge their preliminary medical knowledge. The students responded flawlessly, showcasing their proficiency and keen interest in the medical field. Such enthusiasm and curiosity were highly encouraged by the society's representatives, emphasizing the importance of active participation in the group discussions.

Furthermore, it was highlighted that the Circumventricles is not merely a platform for acquiring knowledge but also plays an integral role in organizing and participating in various quizzes.

In conclusion, the orientation served as an effective bridge between the society and the fresh batch, sowing the seeds of mutual respect, collaboration, and academic excellence.

Some glimpses

Q2. CONNECT

Q3. CONNECT

SQUID GAME

The biggest and the most exciting quiz we have organized so far.

It was conducted in MEDICAMENTUM,22.

Rounds:

- A prelims round where cheating was technically allowed.
- A round where you had to choose your set of questions based on a cryptic shape.
- A mega crossword where two groups of 12 were supposed to battle it out against the other team by efficient team work.
- A round where you chose your trusted partner, but didn't know if you were fighting together or against each other.
- A rapid fire round where an incorrect answer meant imminent death.
- A wildcard round where eliminated participants were given an opportunity to be back into the game again.
- A megapconnect round, where you had to bargain with other finalists to get the pieces of the puzzle.

Organising team

Pragya Mitra (2019)

Aneeket Modak (2019)

Saumya Jain (2020)

Shashidhar Rai (2020)

Satyakam Dolai (2020)

Shailesh (2020)

Rajesh (2020)
