Activity Report

Circumventricles - Medical Quiz

HYCOSY

Venue of the event: Online

Date/s of the event: 26th June (preliminary round) and 4th July (Final round)

Summary of the event

"HYCOSY" was an online medical quiz aimed to test the medical knowledge, problem-solving abilities, and clinical acumen of participants through various rounds comprising different types of questions.

The quiz was conducted in two phases, with the preliminary phase held on 26th June and the finals held on 4th July.

Phase 1 - Preliminary Round:

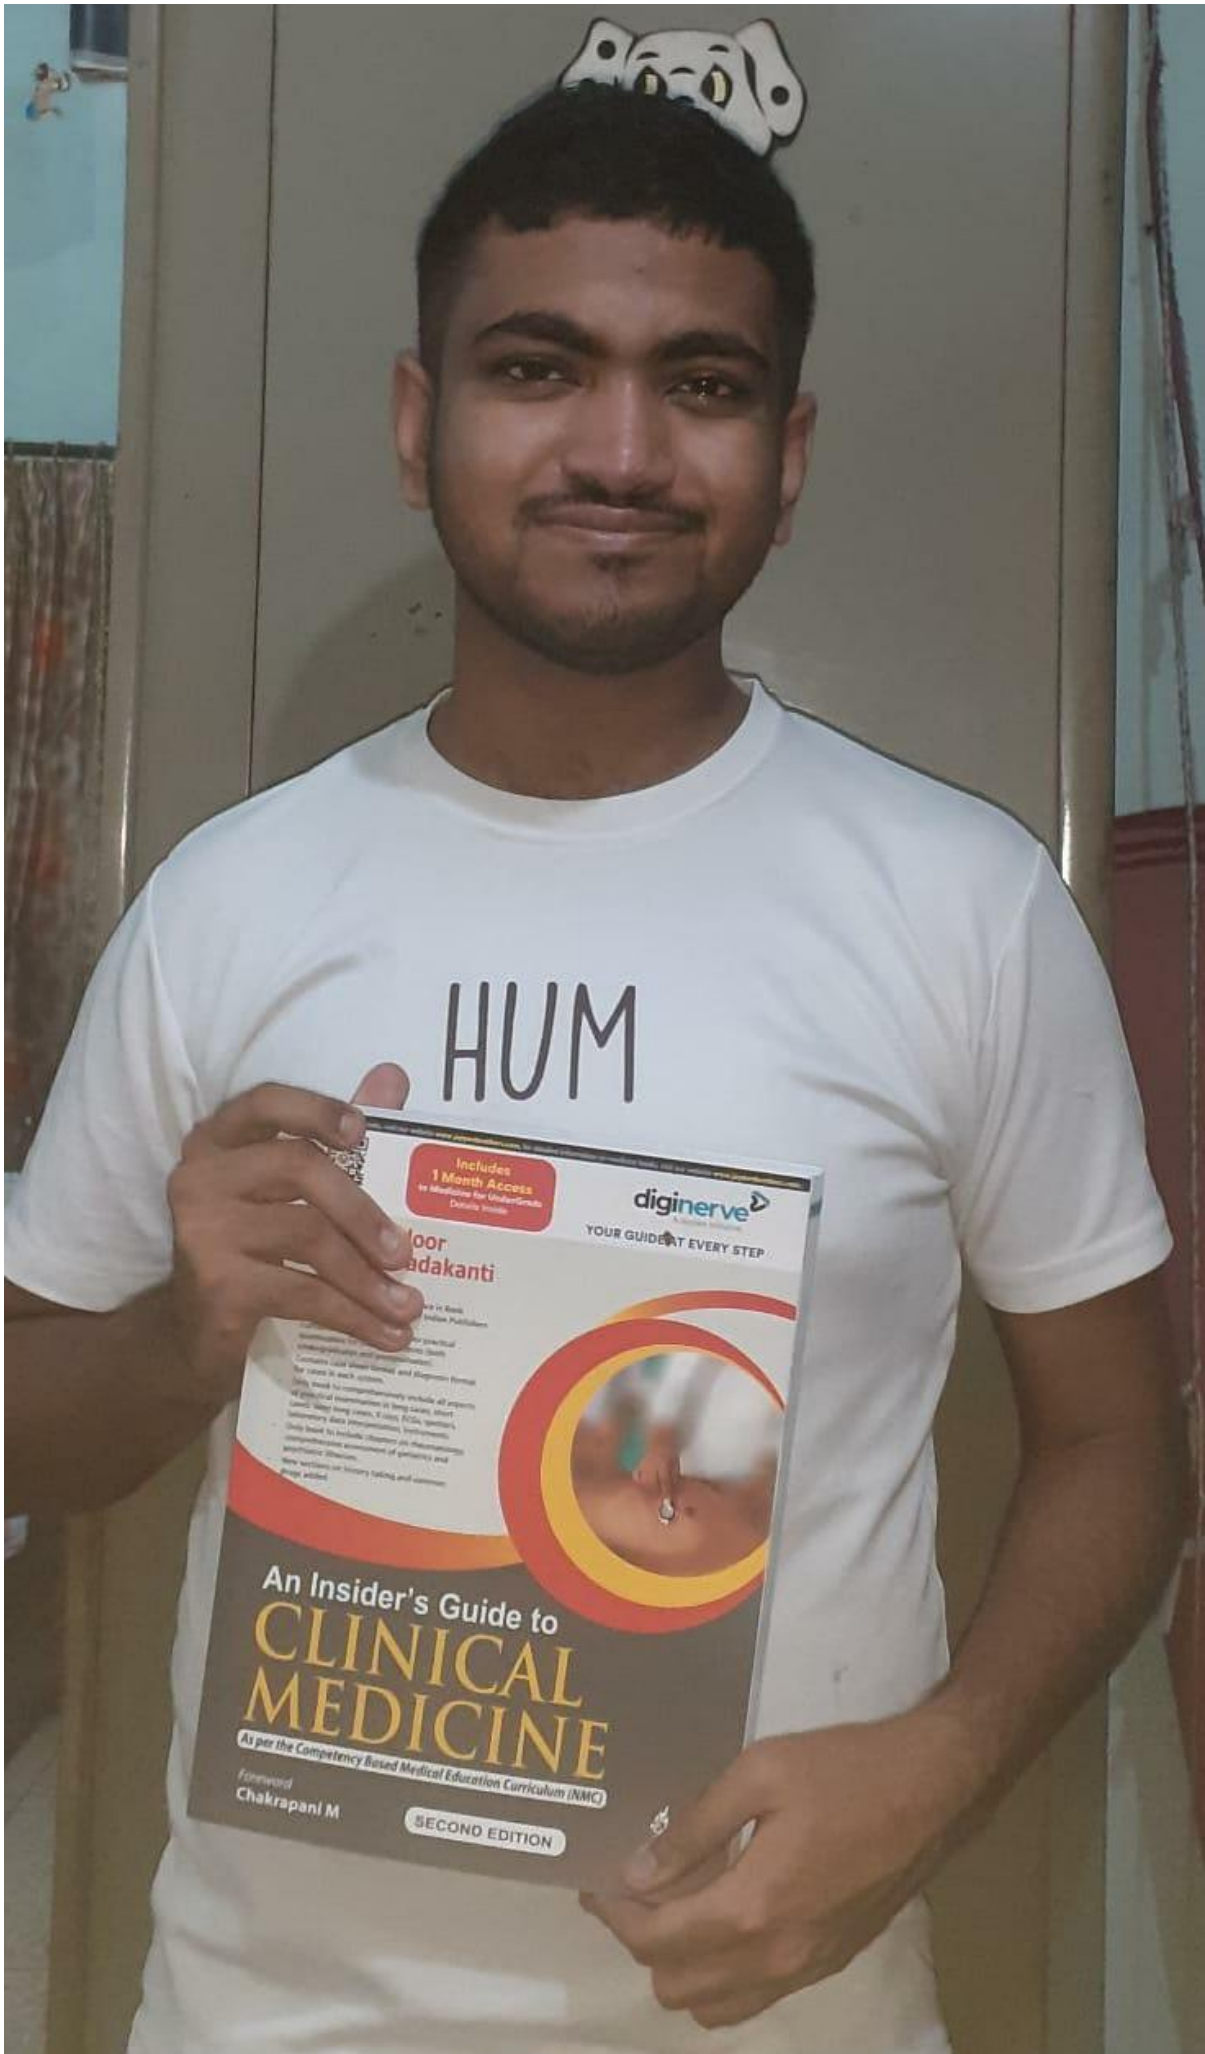

The preliminary round took place on 26th June, and it was conducted via Google Forms. A total of 130 students from all across the country participated in this round. After the evaluation of the submissions, the top 30 performers were selected to proceed to the final round.

Phase 2 - Finals:

The final round was held on 4th July, and it was also conducted through Google Forms. The finalists faced an array of challenging tasks, including crosswords, medical connects, clinical cases, and multiple-choice questions (MCQs). The final round was designed to assess the participants' ability to apply their medical knowledge in real-life scenarios and enhance their critical thinking skills.

After intense competition, the top 6 winners were announced at the conclusion of the finals. Each of the top 3 winners received a valuable prize, along with a certificate of achievement. The winner of the quiz was Shuvrajyoti Mondal from AIIMS Delhi, followed by Ritik Goyal from BSAMCH in second place, and Vignesh Prakash from M S Ramaiah Medical College bagged the third prize. The top 3 winners were awarded a prestigious clinical examination book (Exam Preparatory Manual for Undergraduates: Medicine by Dr. Archit Baloor) and a cash prize.
