Activity Report

Organum Donum - Organ donation awareness

Induction Session

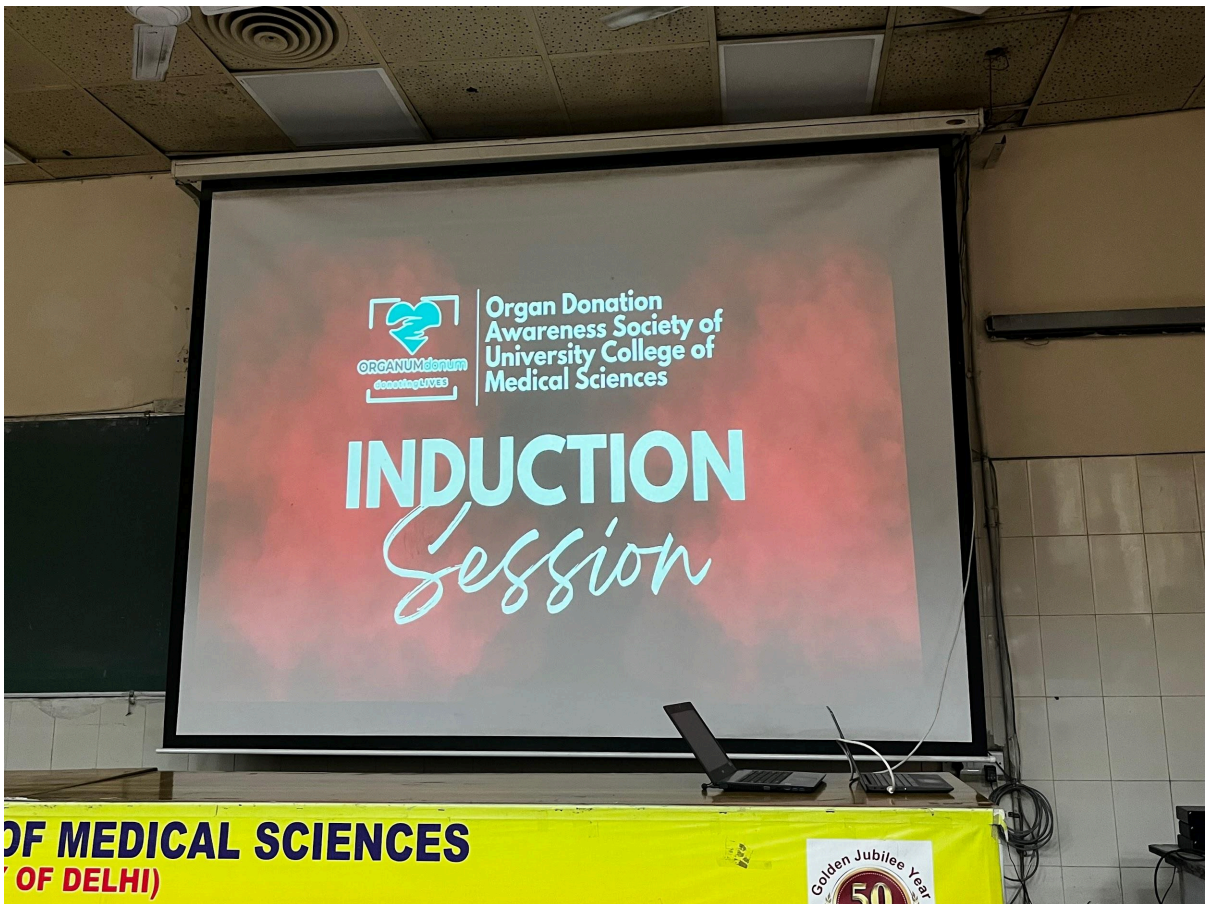

Venue of the event: LT-1

Date/s of the event: 24.01.2024

Summary of the event

Organum Donum organised its Induction Session for the students of batch 2023. Dr. Abhishek Garg, PG resident in Dept. of Community Medicine at Lady Hardinge Medical College and the founder of Organum Donum; and Dr. Khan Amir Maroof, Director Professor of Dept. of Community Medicine at University College of Medical Sciences were guest speakers at the event. The event focused on the necessity and procedures of Organ Donation in India. Through a presentation, students were also informed about the prerequisites of being a donor, and how can one register to be a donor. There was also a discussion on the myths and misconceptions about organ donation, where the students tried to understand the basis of these myths and misconceptions and how to help people bust them. Students were also made aware of the various initiatives taken up by the society to spread awareness about Organ Donation. The session was concluded with a few words by Drs. Khan and Abhishek, where they emphasised on the novel cause of organ donation and encouraged students to contribute to it in their maximum capacity.
