- All the departments were requested to access Google Docs (specific to each topic) and make suitable changes, additions, or removals as needed. The developed Google Docs should include the relevant competencies, as well as specific learning objectives. Any overlapping objectives can either be "shared" or "nested." following discussions between the concerned departments.
- The collaborating departments should use the created linker case when teaching the topic and it must be visible in the institution's curriculum timetable.
- The timetables of KMC Manipal and UCMS were presented and discussed in relation to the alignment and integration.
- It was decided to discuss the mode of integration of the topic Leprosy – Linker case or a 1-day symposium with Dr. Chander Grover.
- The curriculum committee is to be consulted for the mode of dissemination of the alignment and integration planning and linker cases to all the faculty.
