

Sir/Ma'am

To carry forward the works of our teachers and seniors, on 17th November, the organum donum team organised an introductory session for the batch 2022. We made the students sensitize about organ donation and how are we working towards it.

The session was conducted in presence of our faculty advisor Dr. Khan Amir Maroof sir.

The following topics were covered:

1. Introduction of organum donum- Hansika Garg(2019) Manya Gupta (2019)
2. Need of organ donation - Manya Gupta(2019)
3. Myths and conceptions - Sanchit Duhan (2021)
4. What does the society do - Khushi Kumari(2021)

We asked various questions and presented some situations to the students. We were happy to see students actively giving their opinions.

The sessions ended with the enlightening words of Dr. Khan Amir Maroof sir.
