

Medical Education Unit  
UCMS and GTB Hospital

**Career Counseling session - PLAB UK**

The Medical Education Unit held a seminar on PLAB 1 & 2 facilitated by Dr. Imaad Rahman (Batch 2016) on 17th July 2023. The 1 hour interactive session included a comprehensive overview on what to expect when preparing for residency in the UK, working in the NHS, getting involved in research, and grabbing other opportunities in the UK. The students had ample time to clear their doubts and partake in an exchange of memorable anecdotes.

We thank Dr. Imaad for taking the time to guide our highly motivated students. We hope to have many more interactive and informative sessions with our alumni, making UCMS shine on the national and international level. The students feedback was impressive with an average satisfaction score of 4.6 on a scale of 1 to 5. The students also requested to conduct more such sessions.
